

# AYUSH ANANTA ATKARE

Software Engineer | Full Stack Developer | Angular | ASP.NET Core | C# | SQL

Nagpur, Maharashtra, India | +91-8308782758 | ayushatkare1@gmail.com |

[github.com/ayushatkare26-pixel](https://github.com/ayushatkare26-pixel) | [linkedin.com/in/ayush-atkare](https://linkedin.com/in/ayush-atkare)

## PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience developing enterprise web applications using Angular and ASP.NET Core, including a current full-time Software Engineer role and multiple prior internships. Skilled in designing RESTful APIs, implementing authentication and authorization, building responsive Angular interfaces, and integrating SQL databases. Experienced in debugging production issues, developing business modules, and collaborating in Agile teams. Passionate about writing clean, scalable code and continuously expanding expertise in modern web technologies.

## TECHNICAL SKILLS

**Languages:** C, C++, C#, Java, SQL, TypeScript, JavaScript, HTML5, CSS3, Python, PHP, Kotlin

**Frontend:** Angular 18, TypeScript, RxJS, Reactive Forms, Angular Routing, Bootstrap, HTML5, CSS3, SVG Components

**Backend:** ASP.NET Core (.NET 8), REST API Development, Entity Framework Core, LINQ, Dependency Injection, Middleware, Authentication, Authorization, JWT, Session Management

**Databases:** SQL Server, PostgreSQL, MySQL, SQLite, Firebase

**Tools:** Visual Studio 2022, VS Code, Git, Postman, Swagger, pgAdmin, SQL Server Management Studio, Agile, Scrum

**Concepts:** OOP, SOLID Principles, REST APIs, CRUD Operations, Repository Pattern, Database Design, API Integration, Debugging, Production Support

## PROFESSIONAL EXPERIENCE

### Software Engineer | ACTIN Technologies

January 2026 – Present

- Develop enterprise applications using Angular and ASP.NET Core (.NET 8), building on internship work converted into a full-time role.
- Develop and maintain REST APIs using C# and Entity Framework Core, following clean architecture principles.
- Build responsive Angular UI and integrate frontend with backend services using HttpClient and RxJS.
- Own Warehouse, Plant, Authentication, Dashboard, User Management and Printing Utility modules end to end.
- Work with SQL Server, PostgreSQL and MySQL for schema design, queries, and migrations.
- Resolve production issues — rendering problems, API failures, UI responsiveness — and provide direct client support.
- Participate in Agile sprint planning, daily stand-ups, code reviews and testing.

### Full Stack Developer Intern | ACTIN Technologies

3-Month Internship

- Developed enterprise web application features using Angular and ASP.NET Core (.NET 8).
- Built secure REST APIs following clean architecture principles.
- Integrated Angular frontend with backend services using HttpClient and RxJS.
- Implemented JWT authentication and role-based authorization.
- Enhanced application security by migrating token storage from localStorage to sessionStorage.
- Developed secure password change functionality with current password validation.
- Worked on session timeout handling and multi-tab session synchronization.
- Designed and enhanced Angular UI components and SVG-based industrial synoptic diagrams.
- Debugged production issues including rendering problems, API failures, and UI responsiveness.
- Worked with SQL databases, Entity Framework Core, and database migrations.
- Participated in Agile sprint planning, daily stand-ups, code reviews, and production support.
- Converted to full-time Software Engineer based on performance.

**Major Modules:** Authentication Module, User Management, Session Management, Warehouse Management, Plant Master, Location Management, Printing Utility Integration, Dashboard & Monitoring UI

### Full Stack Developer Intern | Algorithm Cat

February 2025 – May 2025

- Developed frontend and backend modules for the Scholarship Stream portal.
- Built responsive interfaces and integrated backend services.
- Improved application performance and collaborated with cross-functional teams during Agile development cycles.

### Junior Gen AI Intern | Qualitas Global Services

September 2024 – October 2024

- Prepared and managed AI training datasets.
- Improved data quality for machine learning workflows.
- Assisted with annotation, preprocessing, and validation processes.

## PROJECTS

---

### **Industrial Monitoring Dashboard** — *Angular, ASP.NET Core, SQL Server*

- Developed responsive dashboards for industrial monitoring.
- Built SVG-based synoptic diagrams.
- Optimized rendering performance.
- Integrated REST APIs for live system data.

### **Sticker Printing Utility** — *ASP.NET Core, Angular*

- Developed printing workflows for industrial label generation.
- Worked with Zebra printer integration and PRN/ZPL templates.
- Enhanced printing reliability through debugging and API improvements.

### **Warehouse Management Module** — *Angular, ASP.NET Core, SQL*

- Developed Warehouse Master CRUD operations.
- Implemented validation and API integration.
- Connected warehouse management with Plant and Organization modules.

### **Authentication & Authorization Module** — *JWT, Session Management*

- Implemented JWT-based authentication with role-based authorization.
- Built session timeout handling and multi-tab session synchronization.

### **Nursery Nest** — *Kotlin, Firebase, SQLite* — *Android Application*

- Developed using Kotlin with Firebase integration.
- Used SQLite for local database storage.

### **Ticketing Tool Application** — *Angular, ASP.NET Core, SQL Server*

- Developed a full-stack ticketing tool for issue tracking and management.
- Built ticket creation, assignment, status tracking, and resolution workflows.
- Integrated REST APIs with Angular frontend for real-time ticket updates.

## EDUCATION

---

**Master of Computer Applications (MCA)** — Savitribai Phule Pune University (2023 – 2025, CGPA: 7.04)

**Bachelor of Computer Applications (BCA)** — Rashtrasant Tukdoji Maharaj Nagpur University (2020 – 2023, CGPA: 7.30)

## CERTIFICATIONS

---

- ASP.NET Core Web API (.NET 8)
- Agile Scrum Foundation
- AWS Solution Architect Simulation
- Python Programming — IIT Bombay Spoken Tutorial
- R Programming — IIT Bombay Spoken Tutorial

## KEY ACHIEVEMENTS

---

- Successfully delivered multiple production-ready modules during internship and full-time role.
- Built secure authentication and authorization systems used across enterprise modules.
- Resolved critical production bugs and improved application stability.
- Worked on enterprise-level Angular and ASP.NET Core applications following Agile methodologies.
- Converted from intern to full-time Software Engineer based on strong performance.

## CORE COMPETENCIES

---

Full Stack Development • REST API Design • Angular Development • ASP.NET Core • Database Design • Production Support • Problem Solving • Team Collaboration • Clean Code Practices
